

5-Minute MCH Program

May 2016: Competency 11

Working with Communities and Systems

Competency 11: Working with Communities and Systems

Instructions: Use the following topics from CityMatCH's Strategic Work Plan as a guide to help plan your interactions with the communities you serve. You can learn more about each topic by using the Navigator's training brief, [Learning Opportunities for the Title V Workforce in Communities and at the Local Level](#), and then fill out this planning form with ideas of how you will work with communities to address topics highlighted by CityMatCH.

Underlying Strategy 1: Collaboration and Partnerships

- **Who are individuals and groups in your community that would be strategic to work with?**

Underlying Strategy 2: Evaluation

- **What are the markers for success for your program and how can you track them?**

Equity Goal: Advance Health Equity and Social Justice for Improved Family and Community Health

- **What are areas in your community needing improvements in health equity and social justice?**

Science-Use Goal: Use Data Strategically for the Transformation of Family and Community Health

- What sources of data already exist that you could use to address needs of the community?

Member-Leadership Goal: Engage and Strengthen MCH Leaders

- Who are the MCH Leaders in the systems you interact with? How can your work together in the community be mutually supportive?

Community Health Centers

- Do you have relationships with your local health center(s)? What are some easy ways you can initiate a conversation with them?
