Explore public health through an MCH lens with
PUBLIC HEALTH PRONTO

JANUARY - DECEMBER 2017

PUBLIC HEALTH PRONTO

ABOUT

Public Health Pronto is the MCH Navigator's newest microlearning project that allows you to participate in short bursts of learning throughout the year to improve your public health skills.

If you liked the 5-Minute MCH program, this is for you! We have improved the format, while keeping the emphasis on just-in-time, incremental, communal learning that can be accessed on-the-go to match your fast-paced work life.

TOPICS FOR 2017

Public Health Pronto will focus on the Core Public Health Competencies, as seen through the lens of maternal and child health (MCH). In addition, we will highlight the core health transformation topic areas as identified by the National MCH Workforce Development Center.

CORE PUBLIC HEALTH COMPETENCIES

- January: Analytical/Assessment Skills
- February: Policy Development/Program Planning Skills
- March: Communication Skills
- April: Cultural Competency
- May: Community Dimensions of Practice Skills
- June: Public Health Sciences Skills
- July: Financial Planning and Management Skills
- August: Leadership and Systems Thinking Skills

HEALTH TRANSFORMATION TOPIC AREAS

- September: Systems Integration
- October: Change Management/Adaptive Leadership
- November: Evidence-Based Decision Making
- December: Looking at Public Health through MCH

HOW IT WORKS

We will master core public health and health transformation competencies each month with an easy-to-follow weekly format designed to increase your knowledge and skills through 5-minute intensive learning sessions emailed to you each week and available through the MCH Navigator's Public Health Pronto web portal.

- **In week 1 of each month**, you'll learn about a new public health competency through a 5-minute video podcast. You will learn what knowledge and skill sets each competency contains and how they are important for daily work.
- **In week 2 of each month**, you'll receive 5 highly focused learning opportunities for that month's competency. You can take one or all of the trainings to sharpen your knowledge and skills. You'll be encouraged to share your thoughts and learning experiences online with others who have taken the same trainings.
- **In week 3 of each month**, you'll receive 5 implementation strategies for putting knowledge into practice. You can share your experiences implementing the strategies in the workplace on the Public Health Pronto web portal.
- **In week 4 of each month**, you'll hear a 10-minute discussion with an expert in the field who will be answering questions that you and your colleagues have submitted during the month.

You can participate in the entire program or join us along the way for specific topics that interest you. All materials are archived on the MCH Navigator website.
