MCH Navigator:
Relaunch 2014
MCH SPH Training Grantee Meeting

John Richards
Project Director for the MCH Navigator Cooperative Agreement
Research Director
McCourt School of Public Policy
Georgetown University
Before
MCH Navigator = Clear Vision + Hard Work

• Idea for a MCH learning portal was germinating for several years
• 2008 State Title V Workforce Survey Findings
• April 2009: SPH MCH Grantees form partnership to operationalize MCHB vision for portal
• Unique opportunity at HRSA provided division capacity needed to coordinate the complex collaborative project
After

MCH NAVIGATOR
A Training Portal for MCH Professionals

Welcome to DataSpeak!
Partnerships

• Individuals: 1) PH MCH faculty from UAB, UNC, Tulane, UIC, UW, Hopkins; 2) State Title V Directors LA and TN; 3) MCHB staff; 4) PH trainees

• Established organizational endorsements and partnerships:
  AMCHP
  PHTC
  NACCHO
  CityMatCH
  AUCD

• 6 Vetting Panels of MCH professionals in practice, to date (> 80 individuals)
Types of Trainings

• Just-in-time learning modules
• Tutorials
• Webinars
• Online and on-site courses
• Selected archived MCH conference sessions
• Highlighted links to Public Health Training Centers’ (and similar) directories of available PH on-line learning
• Location guidance: MCH Institutes, Conferences, Certificates and degree programs
• Coming Soon: edited, customized webinar pages!
MCH Navigator Use

• Orienting staff without a background in public health or maternal and child health

• Boosting skills for specific job functions

• Incorporating learning plans into the performance review process

• Demonstrating support for professional development

• Come see the presentation at AMCHP, Tuesday January 28 at 12:00 Noon!
A New Home for the Navigator

Georgetown University welcomes the MCH Navigator to a family of MCHB-funded projects that span 30 years.
We’re here to continue the good work...

Project Faculty & Staff

The MCH Navigator project team is made up of health educators, MCH content experts, librarians, and technology professionals who have successfully worked with MCHB for over two decades:

**John Richards, MA, AITP**  
Project Lead, MCH Navigator  
Director, [Health Information Group](https://www.georgetown.edu)  
Georgetown University

**Rochelle Mayer, EdD**  
Content Expert, MCH Navigator  
Director, [NCEMCH](https://www.georgetown.edu)  
Georgetown University

**Sarah K. Riehl, MA**  
Training Developer, MCH Navigator  
Communications Lead, [Health Information Learning Lab](https://www.georgetown.edu)  
Georgetown University

**Keisha Watson-Bah, PhD, MPH**  
Training Director, MCH Navigator  
Assistant Director, [Health Information Group](https://www.georgetown.edu)  
Georgetown University

**Beth DeFrancis, MLS**  
Training Coordinator, MCH Navigator  
Reference Librarian, [MCH Library](https://www.georgetown.edu)  
Georgetown University

**Tim King**  
Web Developer, MCH Navigator  
Technology Lead, [Health Information Group](https://www.georgetown.edu)  
Georgetown University
Innovations

Continue to focus on the competency-based needs of the Title V workforce at a time of great change and expanded learning modalities and opportunities...

Back-End Data and Structure

This module describes the role of epidemiology, a definition of epidemiology, as well as an introduction between descriptive and analytic epidemiology: concepts that define epidemiology, as well as a module that covers determinants (agent, host, and environment) that focuses on the most common uses of epidemiology surveillance, disease investigation, and communication screening, and intervention programs. Learning examples, providing short exercises during the lesson, are included to complete a final assessment.

Learning Objectives:
- Describe the components of the definition of epidemiology.
- Recognize and explain basic epidemiologic concepts.
- List and describe examples of the use of epidemiology in practice.

Competencies:

1. MCH Knowledge Base/Context
   - 1K1 History of MCH structure
   - 1K2 Core values for focus on MCH populations
   - 1K3 Services through MCH programs
   - 1K4 Data collection/analysis; needs analysis
   - 1K5 How PUBLIC HEALTH programs work together

2. Self-Reflection
   - 2K1 Understand others' beliefs, communication styles
   - 2K2 Impact beliefs on negotiation/leadership
   - 2K3 Different leadership styles
   - 2K4 Sources of reward vs. signs of stress

3. Ethics and Professionalism
   - 3K1 Ethical behavior
   - 3K2 Ethic/legal principles of PH and clinical practice
   - 3K3 Prof assoc's code of ethics
   - 3K4 RB

4. Critical Thinking
   - 4S1 Ethics in care/human subject research
   - 4S2 Ethics & HEALTH DISPARITIES (bigger than MCH)
   - 4S3 Problem solving; interact w/others
   - 4S4 Ethical dilemmas affecting MCH
   - 4S5 Policies that affect cultural values of communities
   - 4S6 Addressing ethics of HEALTH DISPARITIES

5. Communication
   - 5K1 Principles - verbal, written, nonverbal
   - 5K2 Challenges
   - 5K3 MCH vocabulary

   - 5S1 Share/communicate verbally
   - 5S2 Written communication
   - 5S3 Understand nonverbal cues
   - 5S4 Listen
   - 5S5 Tailor info for audiences
   - 5S6 Presentations/written reports
   - 5S7 Articulate a shared vision
   - 5S8 Employ all communication skills
   - 5S9 Refine listening
   - 5S10 Convincing story to create action

6. Negotiation and Conflict Resolution
   - 6K1 Characteristics in organizations
   - 6K2 Sources of conflict
   - 6K3 Theories
   - 6K4 Negotiation strategies

7. Cultural Competency
   - 7K1 Influences of bias
   - 7K2 Cultural/ethnic/SE factors on access to services
   - 7K3 CC health care practices

   - 7S1 Self-assessments
   - 7S2 Strengths of communities
   - 7S3 Modifications of services to meet needs
   - 7S4 Employ CC health strategies
   - 7S5 Integrate CC into programs, etc.

What is Epidemiology in Public Health?. Date Developed: n.a.. Source: Northwest Center for Public Health Practice.
Presenter(s): Victoria Holt, PhD, MPH, RN. Type: Narrated Slide Presentation. Level: Introductory. Length: n.a..

Annotation: This module describes the role of epidemiology in public health. It begins with a definition of epidemiology, as well as an introduction to the difference between descriptive and analytic epidemiology. Next, it describes the core concepts that define epidemiology, as well as a brief history of the field. The module also covers determinants (agent, host and environment), and describes the most common uses of epidemiology in the field of public health: surveillance, disease investigation, and community health assessment, screening, and intervention programs. Learning is reinforced using SIDS as an example, providing short exercises during the lecture, and requiring participants to complete a final assessment.

Learning Objectives: • Describe the components of the definition of epidemiology. • Recognize and explain basic epidemiologic concepts, principles, and terms. • List and describe six examples of the use of epidemiology in public health practice.

Special Instructions: Registration to the Northwest Center for Public Health Practice is required. Look to the right of the screen and click “Register in PHLearnLink”.

Continuing Education: Continuing Nursing Education (CNE) credits are available.

Orientation Bundles

If you are newly involved in efforts to improve the health and wellbeing of women, children, and families, this is your starting point for an introduction to the core concepts, programs, and strategies in the maternal and child health field.

Customized sets of lectures and training modules provide an orientation to MCH for different audiences defined by role or type of organization. Select the category that best describes your position to start your “MCH 101” learning:

- **New hires or support staff of maternal and child health programs** (e.g., family and community health agencies in state health departments)
- **Mid-level to senior staff of maternal and child health programs** (experienced professionals who are new to public health generally or MCH specifically)
- **Staff of local health departments and related programs** (e.g., Home Visiting, Healthy Start, Community Health Centers, Tribal MCH)
- **Members of advisory boards, work groups, committees, or community and advocacy organizations** (including families)

How are these sets of resources different from the ones in the other Learning Resources sections? The lectures and training modules in these sets are pulled from the topic areas identified under MCH 101 Learning Resources to make it easy to quickly access a broad introduction to maternal and child health.
Expanded Resources

Training Spotlight
Learning Opportunities to Meet Your Needs

Navigating Your Way through the ACA: DRAFT

As provisions of the Patient Protection and Affordable Care Act (ACA) are being enacted, there is a pressing need for materials relevant to the MCH workforce. This "Just-In-Time" Spotlight presents trainings and resources to assist the Title V staff and grantees with understanding and implementing the ACA.

Check back often as new training materials are added as they are developed and identified. We also invite you to submit trainings or resources that you feel are relevant.

Table of Contents

- Introduction and Spotlight Overview
- Featured Trainings
- YouTube Videos
- Webinars and Presentations
- MCH ACA in Practice: Selected State Trainings and Examples in Title V Programs
- Quick Reference Summaries to Facilitate Training
- Tools to Augment Training
- Additional ACA Resources

Webinars and Presentations

- ACA Delivery Reform and Public Health: What’s the Connection? (2013) includes presentation slides presenting "ACA 101" and questions for the public health to consider as health reform is implemented. (90 minute archived webinar. American Public Health Association (APHA). Also of note is APHA’s Health Reform Resources page.)
- Assessing the Potential Impact of the Affordable Care Act on Uninsured Community Health Center Patients: A Nationwide and State-by-State Analysis (2013) includes data on individuals and costs for opt-out states as they relate to community health centers. (Archived webinar. Clinical Directors Network.)
- Children and the Medicaid Market: State Plan Option (2011) presents a panel of experts on medical home implementation and federal Medicaid and Title V representatives to help answer questions about the funding of care coordination activities for children and youth with special health care needs under health care reform. (Archived webinar. AMCHP and the Catalyst Center.)
- Implementing the Affordable Care Act for Adolescents and Young Adults: Practical Considerations (2013) examines a set of practical topics pertaining to adolescents and young adults including information current at the beginning of the ACA rollout. (80 minute archived webinar. U.S. Maternal and Child Health Bureau.)
- Implementing Health Reform and Improving MCH: Opportunities (2011) explains the Health Insurance Exchanges, plan for Medicaid expansion, preventive benefits, and a workflow of how systems will be developed to improve health in early childhood. (Powerpoint presentation. Johnson Group Consulting for 2011 APHA meeting.)
- Making Enrollment Easier: New Guidance from CMS (2013) presents experts from the Centers for Medicare and Medicaid Services (CMS) and the Center for Burger and Policy Priorities (CBPP) outlines five strategies that are available to all states to automate and streamline enrollment. (94 minute archived webinar. Enroll America.)
- Optimizing Health Reform to Integrate Service Delivery Systems for Women, Children and their Families (2011) highlights the efforts of state Title V maternal and child health programs and their partners to integrate health care service delivery systems. Copies of the slides are also available. (MPH recording of archived webinar. AMCHP in partnership and supported by The Commonwealth Fund.)
30 Learning Opportunities to Support MCH 3.0

Since May of last year, the U.S. Maternal and Child Health Bureau has been working in partnership with the leadership in the State Title V Maternal and Child Health (MCH) programs as well as with other national MCH leaders and stakeholders to develop and refine a vision (titled MCH 3.0) for transforming the Maternal and Child Health (MCH) Block Grant to better meet current and future challenges facing our Nation’s mothers and children, including children with special health care needs.

The MCH Navigator has collected the following trainings to support this transformative vision:

MCH Overview

- Transformation of the Maternal and Child Health Block Grant: MCH Transformation 3.0 (1324)
- MCH 3.0 Advancing the MCH Vision (1309)
- That was Then, This is Now: What’s Next in MCH? (1307)
- Advancing the Maternal and Child Health Vision: What is the Future of the Title V in the Era of Health Reform? (1308)

Needs Assessment

- MCH Needs Assessment: Concept to Catalyst Capacity to Competency (1029)
- MCH Needs Assessment: Capacity to Competency Presentation (1281)
- MCH Needs Assessment and State Performance Measures (1030)
- Basic Survey Design/Best Practices for Gathering Information (1033)
- State Title V Needs Assessment Practice (1023)
Resources to Supplement Learning

Additional Resources
Training Websites and Materials to Supplement Learning

The MCH Navigator has compiled resources to access additional online learning opportunities and to locate materials to augment trainings found through this website. Please use the links below or in the navigation at the left to access these resources:

**Training Sites.** Additional websites that provide repositories of additional online learning opportunities, including TRAIN, schools of public health, professional organizations, and webinar gateways.

**MCH Training Programs.** Access to short-term MCH training opportunities supported by MCHB (certificate programs, institutes, annual events, special courses, and online communities) and long-term MCH training programs (schools of public health with MCH focus and/or offerings).

**MCH Sites and Links.** Access to sites that focus on MCH and leadership, access to resources on specific topic areas in MCH, federal agencies critical to the MCH workforces, student associations, and professional organizations.

These links have been evaluated for the usefulness, reliability, and timeliness of the MCH information they present, and the ease with which visitors can access information and navigate in them. This list is not intended to be comprehensive; rather, it offers a sample of quality sites that are useful starting points for those interested in MCH topics.

MCH and Leadership

For more structured trainings, see the Orientation Bundles or Search for trainings by MCH Leadership Competency in the training database.

Leading State Maternal and Child Health: A Guide for Senior Managers (2004) provides information and resources for senior managers responsible for the oversight or management of all or part of the MCH Services Block Grant. Titles, duties, and scopes of responsibility for family health related federal and state programs vary between agencies and states, but this guide was written to be adaptable to various situations regardless of specific position titles or responsibilities. (PDF manual. Association of Maternal and Child Health Programs).

MCH Alert: Focus on Training

Find out about new learning opportunities weekly in the MCH Alert: Focus on Training.

MCH Navigator staff work with the MCH Library to include a Focus on Training in each issue of the MCH Alert (48 issues/year) that highlights a new training resource available through the MCH Navigator.

In addition, articles in the MCH Alert that summarize research findings often link back to relevant trainings contained in the MCH Navigator, as available. Staff search over 200 sources, including peer-reviewed journals, newsletters, press releases, websites, and direct submissions from MCHB grantees and others, to select and summarize four to five items each week that report current research findings, policy developments, information about recently released publications and multi-media products, and new program initiatives affecting the MCH community. The MCH Alert content includes a broad range of topics across the many disciplines relevant to MCH and appeals to a wide range of subscribers from different health-related settings.

The MCH Alert is a free weekly electronic newsletter developed by the MCH Library that provides timely reference to research findings, policy developments, recently released publications, new programs, and initiatives affecting the maternal and child health (MCH) community.
